MAD RIVER GARDENS

1934

Greetings 1934 Dahlia Growers

The Dahlia is fast becoming one of our most popular late summer and autumn flowers, and rightly so. Few of us have realized the improvements that have been made in such a few short years. We are fast approaching the ideal.

To see the new varieties coming on the market, more gorgeous colors, improved stems, bigger and better flowers, all this we believe is due to better knowledge of breeding—and here is room for argument a-plenty, as we have found.

However, after quite a lot of experimenting, we ourselves are sticking to a definite line of breeding and hope to produce our share of the new ones for your consideration, as well as offer you on the following pages the outstanding Gold Medal Dahlias of the year, and those that have stood the test of time.

We thank our friends and customers for their confidence and patronage and assure you we have your interest at heart at all times.

Mad River Gardens Introductions for 1934

HARRIET NEAL (Wickersham-Ruschmohr) I. D. The most complete description I can give of this variety is to say that it is a golden Marmion; deeper in color and more refined. I have seen this variety growing for two years and it is a very pleasing, distinctive, and satisfactory Dahlia.

Plants \$5.00 Roots \$10.00

ANTARES (Mad River Gardens) I. D. A pure self color scarlet which does not fade; better than Bagdad we are told. Marvelous stems, beautiful foliage; this was grown as 56-28-30, if you took the number.

Plants \$5.00 Roots \$10.00

REMEMBRANCE (Mad River Gardens) I. D. Here we have a pink, a prolific bloomer on good stems; a seedling of Jane Cowl which scored 80 at Storrs in 1932.

Plants \$2.50 Roots \$5.00

We are also introducing for Mrs. Tennant, Nannie Sine, a very hardy Dahlia that received most favorable comment wherever it was grown or shown.

NANNIE SINE (Tennant) I. D. Color cameo pink with deeper tones of thulite pink; a pastel shade that everyone admired; prolific bloomer and early. Was voted as popular as Satan at the New York Botanical Gardens and Dr. Howe said: "When Nannie Sine runs neck and neck with Satan, she is in fast company." We recommend this and as a good grower in hot climates.

San Leandro, Cal.,
December 27, 1933.

TO OUR FRIENDS:

It is our pleasure to announce that we have secured the services of Mad River Gardens (D. P. Wickersham), Urbana, Ohio, to handle our introductions east of the Mississippi River. Having had so many inquiries from the Mid West, we thought it would be of benefit to our patrons to be able to secure such Dahlias close at hand.

All orders for the territory east of the Mississippi River should be sent direct to Mad River Gardens, Urbana, Ohio. Orders for the Pacific Coast and all territory west of the Mississippi River, will be handled by me from San Leandro, Cal., as formerly.

This arrangement will give us more time to devote to the raising of new varieties and give our patrons something to talk about.

Hoping 1934 brings to all our friends and patrons the best of health and happiness, and better Dahlias, is the ambition and wish of,

Yours very truly,

CHARLES GARRITY.

We are proud indeed to make the above announcement, and are assured that with Mr. Garrity's great knowledge of the Dahlia and its breeding, we may look forward to even greater things.

MAD RIVER GARDENS.

Introductions from the Gardens of Charles Garrity, San Leandro, California

MRS. CHAS. G. REED (Garrity) F. D. A pure white decorative, which was good enough to win a Certificate of Merit.

Plants \$1.25 Roots \$2.50

RUBY TAYLOR (Garrity) I. D. Here is one of the finest Dahlias in our whole garden, with habits nearly perfect. A hard color to describe, probably nearest is carmine. Won over everything in its class on Pacific Coast, and a Certificate of Merit at Storrs. You can't go wrong with this Dahlia, and a good root maker.

Plants \$3.50 Roots \$7.00

Mr. Garrity's 1934 Introductions

BARBARA M. (Garrity) I. D. Here we have a new beauty. Yellow ground with pink shadings; each petal tipped white, with stag horn formation.

Plants only \$2.50

GAY CABALLERO (Garrity) I. D. The color of this new one is not shown on Ridgeway's color chart. A shade of peach pink, shaded cream deepening towards sides of petals; flowers 9 to 11 inches on cane like stems.

Plants \$2.50 Roots \$5.00

HONORABLE MR. (Garrity) I. D. This Dahlia was made for those who like a good grower; with perfect stems, strong and cane like. A hard color to describe—we think a dark crimson carmine, that makes every one ask what's this.

Plants \$3.75 Roots \$7.50

MRS. FLEM SAMPSON (Garrity) S. C. A yellow on perfect stems; no faults anyone has found; won over Frau O. Bracht on West Coast. We highly recommend this to the most exacting.

Plants \$1.50 A few Roots \$3.00

MRS. LEONE STAVELY (Garrity) A very large lavender, shaded pink. Good stems after first flower.

Plants \$3.75 Roots \$7.50

Mr. Garrity says, "Watch the boys turn around when they see this next one."

MRS. ELLA WORTHEN (Garrity) S. C. Here is probably Mr. Garrity's choice if there is a choice. A very large flower, which has attracted a lot of attention. Color salmon pink, with lighter shadings and very free flowering, petals are narrow. Watch this one on the show bench next year. Stock limited.

Plants only \$5.00

Novelties from The American Home 1933 Honor Roll

The following descriptions are for the most part, taken from Mr. Derrell W. Hart's Honor Roll:

BUCKEYE KING (Peck) F. D. A sensation at Chicago and Cincinnati, and some of the reports from the Mid-West state this is a better Dahlia than its garden mate Buckeye Bride. I cannot as yet make that claim for it, but if it is even as good as its garden mate, it will last for many years as a popular variety. Color yellow. **Strong Plants \$5.00**

ELINOR M. RADELL (Felsinger), I. D., 1933. The blooms, of good substance, are deep rose pink at center shading to amaranth pink at edges. At the A. D. S. Trial Grounds at Storrs, this dahlia received a certificate the past season and was truly outstanding because of its strong, rugged growth which should withstand adverse growing conditions. It qualified equally well in color, stem, form and size and is prolific in its flowering habits. **Plants \$2.50**

ELISSA LANDI (Cordes-Eastman) F. D. Winner as Best Undisseminated Formal Dahlia at Camden Show. It is most unfortunate for the disseminator's sake that this fine Dahlia could not be shown more this year. It received a Certificate of Merit at Storrs. It is a deep flower of bright orange shading towards gold. I had this Dahlia on trial and found it a mighty satisfactory performer. **Strong Plants \$5.00**

GRANDEE (Ballay) I. D. Winner of the American Home Achievement Medal at the Dahlia Society of California Show. It is a very large flower of a striking combination of Spanish red and golden yellow. The reverse of the petals shows a blush of russett red. Grandee also won as Largest Flower at San Leandro Flower Festival. **Strong Plants \$7.50**

HARRIETT NEAL (Wickersham-Ruschmohr) I. D. The most complete description I can give of this variety is to say that it is a golden Marmion; deeper in color and more refined. I have seen this variety growing for two years and it is a very pleasing, distinctive, and satisfactory Dahlia. **Plants \$5.00 Roots \$10.00**

HILLCREST CINDERELLA (Scott) I. D. Giant bloom; will keep a week without changing the water. Won the largest flower in the 1933 West Virginia show. A very poor tuber producer. Honor Roll Dahlia; color cameo pink tipped with cosmos. **Plants \$5.00 Net**

KING OF YELLOWS (Sagamore Gardens) I. D. Perhaps the two color classes that afford the keenest competition at the present time are those of yellow and red. There were at least a dozen good, new yellows this year and this is one of the best. It is a free blooming, fine growing variety of a rich, clear golden yellow color. Received Certificate of Merit at Storrs in 1932. **Plants \$2.50 Roots \$5.00**

LORD OF AUTUMN (Almy) I. D. Here is a Dahlia that will give the four or five top notch exhibition varieties a run for their money. In fact I prophesy that this variety will win its share of prizes in the specimen bloom classes. It is a huge, clear yellow, a very deep flower and a very impressive one. This was not shown during the year but I had it on trial, and it is the kind of Dahlia that causes a sensation for the dyed-in-the-wool Dahlia fan who likes the big flowers. **Strong Plants \$7.50**

MAN O'WAR (Boone-Ruschmohr) I. D. An exhibition red can no longer be just good to receive recognition. It must be outstanding. I would rate this variety as worthy of that term. Winner of the American Home Achievement Medal at the West Virginia Dahlia Show in 1932, also a Certificate of Merit at Storrs the same year. It is a fine garden variety on account of its splendid habits and one of the best keepers among the large flowered varieties. The color is a rich, dark carmine red, but with plenty of glow and life. Also a variety that will bloom with the earliest and continue right on up to frost. **Strong Plants \$5.00**

Novelties from The American Home 1933 Honor Roll

MONMOUTH RADIANCE (Kemp) I. D. In the hottest class of seedlings that I saw during the year, namely at Camden, this variety came out as winner. It took the judges about 45 minutes to make the decision and I think they picked a grand Dahlia. The color is a light coral pink, shading to primrose at the center of the flower. Under artificial light it is one of the finest colors I have ever seen.

\$6.00

SON OF COMMODORE (Scott) I. D. Good keeper; long stems; Honor Roll Dahlia; not quite as large as The Commodore; color martius yellow with white reverse.

Plants \$3.75

SULTAN OF HILLCREST (Hillcrest Dahlia Gardens) I. D. This Dahlia received two outstanding awards this season, namely: Winner as Best Bloom in Show at the Dahlia Society of West Virginia, and a Certificate of Merit at Storrs. It is a giant flower of clear gold, flushed with bronze and tints of brownish red. I had this on trial and it can produce a lot of fine specimen blooms. It is almost Formal in type.

\$5.00

WASHINGTON GIANT (Lee) I. D. The sensation at Portland. Derrill W. Hart's description of this unusual variety follows: "Winner of the American Home Achievement Medal at Portland. Here is a real lavender in a finely formed flower; the blooms are streaked with silver and as it grew with me, showed silver petaloids near the center of the flower; it is an aptly named flower on extra good stems."

Plants \$5.00 Net

RED HEAD (Peck) Another fine grower in a Miniature Dec. A brilliant flame color and a fine variety for bedding or house decoration. This one, I think, will be a favorite.

Plants 50c Roots 75c

1934 Introductions of Other Growers

ARCTURUS (Peck) F. D. Scarlet; possibly a new type; won as red formal. Certificate of Merit at Storrs 1933. A marvelous grower that we recommend very highly.

Plants \$5.00 Roots \$10.00

CLARA BARTON (Salem Gardens) I. D. An immense Informal Decorative, blooms facing slightly upward on a long, straight stem twelve inches to first set of leaves. Face of petals silvery orchid, reverse of petals deep lavender, general effect lavender; a very prolific bloomer on a bush of medium height that never stunts.

Plants \$5.00 Roots \$10.00

HONOR BRIGHT (Peck) F. D. Peach red, self color to deep orange. Fine stemmed, free flowering, resistant, long keeping. Certificate of Merit at Storrs 1933.

Plants \$5.00 Roots \$10.00

ROCKLEIGH (Lodge) I. D. A blackish red on a strong, growing bush; a lot of color and everyone asks, "What is this one?" we recommend it. New.

Strong Plants \$5.00 Roots \$10.00

LOUISA BATES (Cordes-Eastman) S. C. A spectacular mallow pink with phlox purple center, that created quite a sensation wherever seen; prolific bloomer on the best of stems. Certificate of Merit Storrs 1933.

Plants \$5.00

WOOLROC (Jennings-Ruschmohr) I. D. Here we have a very attractive golden tan on the best of stems winning many prizes at the Eastern Shows.

Plants \$5.00

Recent Interesting Introductions

ACHIEVEMENT (Ballay) I. D. A truly magnificent Dahlia that should be in every garden. The color is a golden yellow, suffused with bronze and rose, giving a general tone effect of apricot. A very large flower.

Plants \$1.00

ADMIRATION (Broomall) I. D. A geranium pink flower of large size, which was very much admired in Mr. Reed's garden. A few flowers may face down.

Plants \$1.50

THOMAS A. EDISON (Dahliadel) F. D. A gorgeous royal purple Dahlia, with a sheen of velvet; stag horn petal formation; this variety was chosen by the electrical wizard himself.

Plants 50c Roots 75c

TREASURE ISLAND (Dahliadel) F. D. One of the brightest autumn shades; color bright apricot, with gold and rose shadings; a wonderful success wherever grown.

Plants 50c Roots 75c

VARIO (Boston) I. D. One of the best variegated Dahlias; a new color combination tan mixed with pale pink, in every imaginable combination; large blooms with the best of stems.

Plants 75c Roots \$1.50

W. H. T. (McCarrol) F. D. An uncommon rich old rose, or begonia with mauve shadings, in large flowers; a robust Dahlia which is very reliable.

Plants 50c Roots \$1.00

WASHINGTON GIANT. See page 7.

WATCHUNG WONDER (Smith) F. D. A spectacular rich, royal red with a touch of gold at tips of petals; stems strong with blooms facing upward; unusual keeping qualities.

Plants 50c Roots 75c

WHITE WONDER (Kemp) I. D. This big white has a formation not unlike Fort Monomuth, with graceful wavy petals. Best undessimated seedling at Red Bank.

Plants \$3.75 Roots \$7.50

WM. J. RATHGEBER (Parella) I. D. Here is an outstanding novelty with a color all its own; essentially a red, but in daylight it is a definite rose scarlet, with no tendency to fade. A fine, upright grower on beautiful stems. Don't miss this one. We recommend it to the most exacting.

Plants \$2.50

WILLIAMETTE (Crites) I. D. The colors of this beauty are so blended that an accurate description is almost impossible; face of petals golden coral and orange, tinted rose and salmon; very large flowers, on a husky growing bush; very prolific. We recommend this one.

Strong plants \$1.25 Roots \$2.50

WOOLROC. See page 7.

WONDER PINK (Kunzman) F. D. A very fine large pink; the vigorous type, free blooming on very good stems.

Strong Plants \$1.00

Dahlia Plants

Regarding Dahlia Plants—We have shipped plants with great success to all parts of the United States, and have received comments like the following:

California—"I have never seen such packing since I left home (Scotland); every plant looked like it had just left the greenhouse."

Michigan—"Thanks for such nice plants; not a leaf bruised."

Ohio—"Best plants I have ever gotten from any place."

New York—"Your plants are knockouts."

We appreciate these comments and will see to it that your plants reach you in as satisfactory condition.

Buy a plant this year, and have a clump for next year. At least 75 per cent of our growing is from plants.

If you have not done so already, we recommend that you subscribe to The Mid West Dahlia News, No. 170 Talmadge St., Madison, Wis. You will get up to the minute Dahlia news treating on every subject of interest to a Dahlia fan. A real live publication, \$1.00 per year—issued quarterly.

JOIN THE AMERICAN DAHLIA SOCIETY

We urgently recommend that if you are not a member, send \$2.00 to the secretary, Mr. C. Louis Alling, 251 Court St., West Haven, Connecticut, which entitles you to a bulletin, published quarterly, filled with useful information on Dahlia Culture. Try it a year.

Complete Planting, Care and Cultural Directions with each order.

With the foregoing descriptions we have made every effort to not overdescribe our offerings. Our continued success depends upon our Dahlias making good. If your dealings with us are not satisfactory, we want to know it. We solicit constructive criticism.

We invite you to visit us at any season, but especially at blooming time, that you may see a wealth of new things for introduction in 1935 and 1936—our own new Dahlias, and the promising new ones of other growers, and some from Australia which we have been entrusted to introduce. We mean to have the very best of the new Dahlias and are sure a visit from you will be mutually gratifying.

General Information

ORDER EARLY—We urge all customers to place their orders early. Stock of the newer varieties is limited and much disappointment can be avoided. All roots sent out prior to March 15th are sent at the buyer's risk. Although we take every precaution, they are not guaranteed against freezing.

TERMS—Remittance with order on or before time of shipment. Retail orders are delivered prepaid. Wholesale orders at the purchaser's expense.

SHIPPING—Orders are shipped as soon after April 1st as convenient, unless otherwise notified. Green plants will be shipped around May 1st to June 15th, as you specify.

GUARANTEE—We guarantee every plant and root sent out by us to be true to name and in a healthy condition when received; after that our responsibility ceases as we have no control over growing conditions. Please notify us at once, if anything is unsatisfactory when received, or if plants or roots do not grow after planted a reasonable length of time. This guarantee does not go beyond replacing the variety.

SUBSTITUTIONS—We make no substitutions without your permission, but suggest you name a second choice.

NAME AND ADDRESS—Be sure to write name and address plainly.

GREEN PLANTS—We recommend the planting of green plants. For exhibition blooms, they are unequalled.

Do not be discouraged if a Dahlia from a different locality does not do well for you the first season. Try it again as many varieties need to be acclimated.

We specialize in gathering together worth-while new Dahlia originations. If you do not see the variety listed that you want, write us; we grow many Dahlias not listed here.

DAHLIA SEEDS

Having been asked so many times, "Where do you get your seeds?" and "Where can I buy seeds like that?" we have decided to offer for sale a few seeds—a limited supply only.

Dahlia Seeds at best, the very best, are always a chance, because of breeding for hundreds of years back. From twenty-five seeds you might get a real Gold Medal winner, and from a thousand seeds, nothing worth while. The best we can do is to give you the best to be had—there are none better.

We know of no greater sport than to watch these seedlings burst forth for the first time, and to know when we do get a new one that is worth while, there is none other like it.

We feel fortunate indeed to be able to offer you Dahlia Seeds from, we think, one of America's greatest Dahlia breeders.
